

Mathematics 2 ESO - Unit 11 (AREAS AND VOLUMES)

Page 108 - Activity 2 (b12)

Go to <http://www.mathsisfun.com/geometry/solid-geometry.html> read it and answer:

- a) Why do we call solid geometry “3 dimensional” or “3D” geometry?
- b) What are the names of the three dimensions?
- c) On the same webpage, lower down, you can see different types of solids. Name the different types and describe them.
